Residents, Families and Friends!

Hello and welcome to our most recent newsletter covering the months of September and October. We are thrilled to announce the upcoming addition of some fresh and captivating entertainment. Allan McFarlane and Gary Davidson will be sharing their years of experience and leading a fun sing-along session.

This month, our focus is on raising awareness and offering assistance for the dementia cause.

We've just initiated a gardening committee that encourages our residents to contribute their ideas for improving the gardens around their homes. It's truly delightful to see the flowers blooming and flourishing at this time of year, and we're eagerly looking forward to our upcoming visit to the Bunning Nursery.

Here's to a month filled with learning, laughter, and inspiration!

Poem to Share

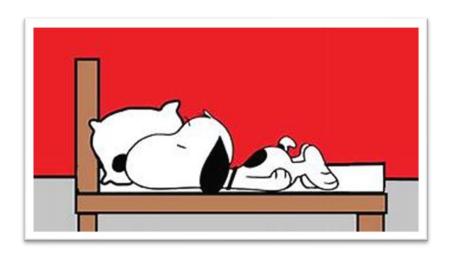

"My Shadow" by Robert Lewis Stevenson

I have a little shadow that goes in and out with me, And what can be the use of him is more than I can see. He is very, very like me from the heels up to the head; And I see him jump before me when I jump into my bed.

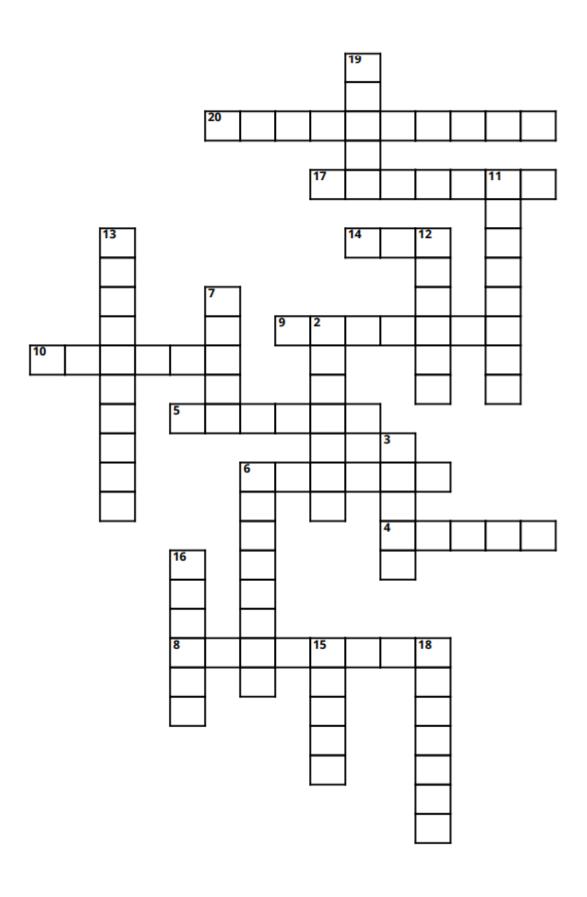

The funniest things about him is the way he likes to grow— Not at all like proper children, which is always very slow; For he sometimes shoots up taller like an India rubber ball, And he sometimes gets so little that there's none of him at all.

He hasn't got a notion of how children ought to play, And can only make a fool of me in every sort of way. He stays so close beside me, he's a coward you can see; I'd think shame to stick to nursie as that shadow sticks to me!

One <u>morning</u>, very early, before the sun was up, I rose and found the shining dew on every buttercup; But my lazy little shadow, like an arrant sleepy-head, Had stayed at home behind me and was fast asleep in bed.

Husband & Wife

A woman goes to the Doctor, worried about her husband's temper.

The Doctor asks: "What's the problem?"

The woman says: "Doctor, I don't know what to do. Every day my husband seems to lose his temper for no reason. It scares me."

The Doctor says: "I have a cure for that. When it seems that your husband is getting angry, just take a glass of water and start swishing it in your mouth. Just swish and swish but don't swallow it until he either leaves the room or calms down."

Two weeks later the woman comes back to the doctor looking fresh and reborn.

The woman says: "Doctor that was a brilliant idea! Every time my husband started losing it, I swished with water. I swished and swished, and he calmed right down! How does a glass of water do that?"

The Doctor says: "The water itself does nothing. It's keeping your mouth shut that does the trick."

The Farmer

A man asks a farmer if he can cross his farm to catch the 4:25 train.

The farmer says: "Sure go right ahead! If my bull sees you, you might even catch the 4:20!"

The Mother-in-law

Assistant: "Sir, can I have a day off next week to visit my mother-in-law?"

Boss: "Certainly not!"

Assistant: "Thank you so much sir! I knew you would be understanding."
